

“Heaven in Earth” mugs given as prizes at loppet

To the right is one of the prize mugs for this year's R.K.S. Loppet race winners, made by Stephen Plant of Heaven In Earth Pottery. These souvenir mugs reflect the spirit that enthralls volunteers and racers to participate in this unique long running event.

Besides the race winners, there are four people who have raced in every one of the 20 years being celebrated this year. For these “20/20” skiers Stephen has created giant mugs with another unique sprig skier decoration.

Stephen is considering making another run of mugs for those wishing to purchase one (not everyone can win one). He will be taking orders at the presentation ceremony Jan. 17 or at the studio at 838-6800. Check [www. heavenin-earthpottery.com](http://www.heavenin-earthpottery.com) for more information.
